

Customer Story

Synergy Wellness and Medispa

There's a cool secret nestled within Red Bank, New Jersey. Synergy Wellness and Medispa, a premier medical spa that offers innovative aesthetic and wellness services (for one, the clinic is known to be a CoolSculpting expert!), aims to transform their patients in being confident on how they look.

Founded by Dr. Lisa Golding-Granado and Danielle F. D'Alessio, Synergy Wellness and Medispa combine excellent aesthetic practice services and premier healthcare assistance. The team is also headlined by a great balance of experts, who not only offer cutting-edge aesthetic solutions - a focus on outstanding self-development is also prioritized on all clients.

Synergy Wellness and Medispa is best known for their CoolSculpting procedure. This treatment offers fast and safe results!

Challenge

The problem was that Synergy Wellness and Medispa just couldn't seem to reach out to the clients that matter online. It was hard - even if this center can provide some of the best solutions in the industry, people just couldn't seem to search for them online!

It was painful to see that a premier medical spa such as Synergy Wellness and Medispa couldn't tap into the market that they deserve.

Solution

Synergy happens when two or more elements combine and make things happen. And this is what Growth99 aimed for when helping out Synergy Wellness and Medispa. To establish a solid presence online, Growth99 developed a new and user-friendly website for Synergy Wellness and Medispa. Additionally, a reliable SEO strategy had been set into motion, allowing for the medical spa to grow organically.

And everything was done in just 10 days. Aside from having the new (and complete) website, the SEO plan had also been implemented. Best of all, ranking was done and seen during this short timeframe.

Synergy Wellness and Medispa continue to grow online. With monthly blogs and glowing reviews from clients, only a bright and fruitful future is expected from
